FRONTEND DEVELOPER

I am a person with a good understanding of application development and a strong motivation to grow professionally in my role. I easily adapt to new work environments thanks to my team spirit and excellent listening and communication skills.

SKILLS

React - Angular - Vue 3 - Javascript - Typescript - Html5 - Css3 - Bootstrap - Tailwind

Git - Responsive Web Design - VSCode

Problem solving - Team Worker - Communication - Time Management - Curiosity

PROFESSIONAL EXPERIENCE

Frontend Developer   **2022 - current**

I have developed various front-end projects and recently created my personal website: **https://marco-falasca.netlify.app**. It is built using cutting edge technologies such as **React**, **Vite** and **Tailwind** and is designed for all devices.

HOUSE-LISTING-APP   **2024**

- I developed an application in **Vue.js** for a company: **DTT-Multimedia**, obtaining a demonstrable positive evaluation.
- I faithfully followed the design provided by the company, using the **Overflow** tool to map the data flow and define the application behavior based on interactions with the interface.
- For state management, I chose **Pinia**, which allowed me to keep logic separate from components, improving modularity and clarity of the code.
- The application adopts the **CRUD** method for data management, which is saved on the server via **API** calls, ensuring their persistence even when the page is reloaded.

- I have made many projects using React, Angular, Javascript and Typescript, present on my account **Github**.
- I have learned how to create responsive web interfaces with tools like **Grid** and **Flexbox** in **CSS**.
- I have gained experience in problem solving, trying to address various issues encountered during work.
- I have used version control systems like **Git** to track my web applications during development.

- I learned how to build a modern web app and deploy it on a hosting platform.

Eataly Cassiere - Eataly Today   **2014 - 2023**

I worked for almost 10 years at this large, world-famous food and beverage company as a cashier and for their online grocery shopping service, Eataly Today.

Results achieved:

- Communication skills, interactions with foreign customers.
- Ability to work in a team.
- Managing work-related stress.

Metro Cash & Carry Cashier - Supervisor   **2011 - 2013**

I worked for this large world famous cash and carry company as a cashier and supervisor when needed.

Results achieved:

- Managing situations as a Supervisor, providing detailed instructions to colleagues
- Teamwork
- Communication skills

TRAINING

CS50 - EDX Harvard Computer Science   **2024**

Introductory course
- CS50x and CS50T
- I have completed Harvard's CS50T and CS50x introductory computer science courses, available on EDX and Harvard.edu.
- I have enriched my personal skills by learning new languages such as C, Python, SQL and carrying out many exercises to better understand the fundamentals of programming.
- I learned problem solving skills for programming.

Corso Front end developer   **2023**

LabForTraining

- I completed a 6 month course during which I delved into the field of Front-End development, acquiring various skills such as JavaScript, React, Angular and Responsive Web Design.
- I have made two main projects: a Netflix clone in two versions, one in JavaScript and the other in Angular.

Is. Tozzi   **2007**

Accounting diploma

MARCO FALASCA

DEAR HIRING MANAGER

I am writing regarding the Front End Developer position at your company.
My name is Marco Falasca, and I am a Front End developer. Over time, I have acquired a wide range of skills in web application development.

Initially, I attended a course where I gained skills that enabled me to develop two versions of Netflix, one using Vanilla JavaScript and the other Angular.
Since then, I have never stopped learning and working on projects, constantly striving to use the latest technologies and adhere to best practices in code writing and design.

Currently, I have completed the CS50x course at Harvard.edu, acquiring skills not only from a theoretical standpoint but also practically, gaining a better understanding of how things work at a lower level with C. Additionally, I had tackled various problems and exercises in SQL, Python, and Flask, relevant to the world of web development.

I also have a **Portfolio** website developed in React, where I have showcased most of the projects I have worked on, which you can find in my resume.

I believe I am suitable for this position because, in addition to possessing excellent adaptability skills, I am someone who is eager to always learn new things, firmly believing in personal growth through interaction with others.
'm a serious and determinable person that really wants to move abroad to make an important work experience.

Attached is my CV, where you will find listed my skills and professional experience.
Thank you for taking the time and consideration to review my resume, and I hope to hear from you soon.

KIND REGARDS,

MARCO FALASCA
